## Engineering and Transportation Department CIP Projects

---

### Design/Build Sherwood Hall Energy Efficient Chiller Unit and upgrade to other City Facilities (City C.I.P. Project No. 9115)

#### Description

Design and construction to replace the chiller at Sherwood Hall and the Community Center with a new energy efficient unit; plumbing and electrical work to configure the existing system with the new system; and retrofit of the cooling tower and cleaning of air handling units. Additionally, the HVAC and controls are proposed to be designed and replaced or upgraded at the Permit Center and City Hall.

Contractor: Della Mora Heating, Sheet Metal and Air Conditioning Inc.

Award amount: \$ 472,996.00

#### Schedule:

Design/Build Sherwood Hall Energy Efficient Chiller Project  
Estimated Schedule as of May 3, 2011

<b>Work Task</b>	<b>Date</b>	<b>Status</b>
Project Design -- Design Contract Agreement	April 19, 2011	In progress
Begin Project Design	TBD	
Begin Construction	TBD
