

MAIN STREET STREETScape PROJECT

DESTINATION DOWNTOWN

NOTICE OF CONSTRUCTION

April 1, 2020

Stakeholders:

Monterey Peninsula Engineering (M.P.E.) is working with the City of Salinas to make Underground Utility, Roadway and site improvements on Main Street from Central Avenue to San Luis Street.

In five (5) days, M.P.E. will commence construction activities. While this activity is in progress, access to driveway/street ***may*** be limited and delays may be experienced. Working hours will be between the hours of 7:00a.m. and 5:00p.m., Monday through Friday.

All work zones will be secured at the end of each work day for safety. The City and M.P.E. are committed to completing this work quickly, efficiently and safely. M.P.E. apologizes for any inconveniences during construction. We appreciate your patience and understanding.

M.P.E. and City Staff are working carefully during the State of Emergency. Based on the Monterey County Health Department's Order, Public Works construction is exempt from the Shelter-in-Place. The project will continue as planned, construction crews and city staff will all strive to implement the County Health Department's recommendation to help flatten the curve.

Please note, please remove any private property installed in the public right of way. The construction activity may require the temporary closure of sidewalks and other public space to facilitate construction activity. To avoid any incidental damage to private property in public right of way, the property's owners are recommended to remove any installations at their earliest convenience.

If you have any questions, please call the on-site Foreman, Michael Wax, at (831)277-5363 or City of Salinas Public Works Department (831)758-7241.

Thank you,

City of Salinas Staff & Monterey Peninsula Engineering
